

DATABASE INFORMATION SHEET

It is our hope that by recording all details of Parti and Phantom coloured poodles into our database, everyone interested in these colours will be able to find out more about, not just the colours, but also the breeding of all Partis and Phantoms in the UK. In order to achieve this, we very much hope that anyone with a parti or phantom of whatever size will send us their details. This then becomes a very useful tool when trying to find suitable dogs for breeding. It will also be a record that we can present to the Kennel Club, when we endeavour to get the colours recognised by them.
