

I'm pleased to say Luca now stays in the ring but still sometimes chooses his own course, although on a good day Luca can occasionally take the red ribbon.

We also have fun with RallyOnline which aims to provide online Rally competitions, (as close as possible to KC Rules & Regulations), and training events. The early tests caused much amusement, as each time the collar was taken off to show to camera, 'Zoomie' also took off, usually exit stage left!

However, with grateful thanks to a very patient camera woman, we eventually had a decent video to send in each time and we have progressed through the grades with excellent scores, and he is now perfect with the collar removal! Luca has achieved the Video Rally Excellent Title Level 6.

In summary, my poodle Luca is a great competition partner at every discipline we have tried.

But most importantly, he is a much-loved, fantastic family member and the perfect cuddle dude who appears on my lap nightly for his extra cuddles, and makes us laugh and give thanks for him each and every day.
